

Deferred Payment Agreement Form for Dual Enrollment/Credit

By signing this form, I am agreeing to the following conditions for my dual enrollment/credit course(s).

I will pay one-half of the Tuition and one-half of the Course Materials Fee. I will defer the remainder of my Tuition and Course Materials Fee. If I enroll as a full-time student at Southwest Mississippi Community College and complete the first semester following my high school graduation, the college will scholarship the balance of my dual enrollment/credit financial obligation. If I do not enroll as a full-time student at Southwest during the first semester after graduation, I must pay the remaining balance by September 1st of that year. After the account is paid in full, Southwest will release my transcript of classes to other institutions. For example, a 3-hour dual enrollment class will cost \$230. A payment of \$115 is due before the class begins and \$115 will be deferred. Six hours of dual enrollment costs \$380, so \$190 is paid before the class begins, and \$190 is deferred.

This payment option is only applicable for the first 15 dual enrollment/dual credit hours. Any credit hours above 15 or any course taught on the campus of Southwest will require regular tuition and fees, currently \$130 per hour with a course materials fee of \$125, a technology fee of \$50, and a student service fee of \$50.
