YEAR-ROUND PELL EXAMPLES

Please note these examples are for demonstration purposes only. Pell Grant award amounts vary from student to student based on their Expected Family Contribution (EFC), a student's program of study, and are contingent on remaining in Satisfactory Academic Progress (SAP). Please visit the Office of Financial Aid to determine your status!

1. FULL-TIME FALL & SPRING

- If a student receives full-time Pell disbursements in both the fall and spring terms they have used 100% of their 2018-19 Pell and will need to follow Year-Round Pell guidelines to receive Summer 2019 Pell. These students are required to enroll in a minimum of six (6) credit / Title IV eligible hours to receive Pell for Summer 2019.

2. PART-TIME FALL OR SPRING

- If a student received part-time Pell disbursements for Fall or Spring terms, they will first use the remainder of their 2018-19 Pell. After all yearly Pell funds are used, students will then pull from Year-Round Pell funds. Example: student receives a full-time disbursement in Fall and a 3/4 time disbursement in Spring. This student could still be eligible for a full-time disbursement for Summer 2019. The student will first pull the remainder of their 2018-19 Pell and then access their Year-Round Pell. Anytime a student pulls funds from Year-Round Pell, they must enroll in a minimum of six (6) credit / Title IV eligible hours.

3. DIDN'T ATTEND FALL OR SPRING

- If a student did not attend Fall and / or Spring semesters they will simply use the remainder of their 2018-19 Pell. These students are not required to enroll in a minimum of six (6) credit / Title IV eligible hours to receive Pell because they are not pulling funds from Year-Round Pell. SMCC encourages all students to enroll in six (6) credit / Title IV eligible hours.
